# STATE MENTAL HOSPITALS: 1973

The downward trend in the number of State mental hospital patients continued during the year as 21,275 patients were listed on the books on June 30, 1973. These 21,275 patients represent a decrease of 33,044 from the peak of 54,319 in 1966, and is the smallest number on the books since 1932. (Table 1)

Of the 21,275 patients listed on the books on June 30, 1973, 18,235 were in residence and 3,040 were on leave of absence. Compared to June 30, 1972, there were 1,417 fewer patients in residence and 286 fewer on leave, for a total decrease of 1,703 patients on the books.

Female patients again outnumbered males. At the end of the fiscal year they accounted for 51% of the resident patients, 51% of those on leave, and 51% of all patients on the books. (Table 2)

Psychotic disorders (predominantly schizophrenic reactions) continued to be the prevailing diagnosis of resident patients, with 61% of the year-end residents suffering from such disorders. As in recent years, the majority (55%) of resident patients were afflicted with schizophrenic reactions. (Table 3)

At the end of the fiscal year, the prevailing mental disorders of the resident population were similar to those at the beginning of the year, with schizophrenic reactions decreasing slightly from 55% to 54%, and diseases of the senium remained the same at 3%. Patients suffering from manic depressive remained the same at 3%, while those suffering from other psychotic disorders decreased from 1% to less than 0.5%. The schizophrenic patients continued to account for much of the movement during the year, comprising 46% of all admissions, 68% of placements on and 68% of returns from leave, 58% of transfers in and 50% of transfers out among the hospitals and institutions in the State system. The percentage of alcoholics admitted during the fiscal year (4%) was identical to that of the last year. Diseases of the senium continued to be the predominant causes of death in hospitals, decreasing to 38%, from 42% last year and 43% in 1971. (Table 4)

The percentage distribution of residents by age groups varied slightly from the first to the last day of the fiscal year. As in the last three years, patients 45 years of age and older accounted for 74% of the resident population at the end of the year. On the other hand, patients under 45 years of age continued to account for half or more of the year's movement of residents except for placements on leave and deaths in the hospitals. There has been a decrease in the deaths in hospitals of patients 65 years of age or older from 73% in 1972 to 69% in 1973. (Table 5)

| 1973 | 21,275 | 178 | 21,275 | 18,235 | 3,040 | --- | --- | --- |

1/ State fiscal year ending date changed from May 31 to June 30 beginning in 1962.

2/ County hospitals became State institutions in Embreeville, Hollidaysburg, Mayview, Somerset, and Woodville in fiscal 1941-1942, and Clarks Summit and Retreat in 1943-1944. Philadelphia and Dixmont mental hospitals became State institutions in 1938 and 1945 respectively. Western State Psychiatric Institute opened in 1942, Eastern State Psychiatric Institute in 1950, Haverford in 1962, Eastern State School and Hospital in 1963, and the emotionally disturbed unit of Western State School and Hospital in 1965. Western State Psychiatric Institute became a private institution in fiscal 1949-1950.

3/ Includes a few patients absent from hospital but not on formal placement.
